ACKNOWLEDGEMENT

Receipt is acknowledged of the amendment filed 8/3/2010.

INFORMATION DISCLOSURE STATEMENT

The information disclosure statement filed 8/5/2010 has been received and placed of record in the file.

AFFIDAVIT

The affidavit filed on 8/3/2010 under 37 CFR 1.131 is sufficient to overcome the Choi (US 7165008 B2) reference.

TERMINAL DISCLAIMER

The terminal disclaimer filed on 3/9/2010 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 7165008 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 5, line 1, replaced the phrase "wherein lateral acceleration" with --wherein the lateral acceleration--.

REASONS FOR ALLOWANCE

Claim 1, 2, 4, 5, 7-9, 15 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of record, Watson (US 7057503 B2), taken alone or in combination of other references, does not teach or fairly suggest a method for detecting a potential for a vehicle rollover event comprising, in part, the steps of: determining a rollover potentiality index based on the lateral kinetic energy and lateral acceleration of the vehicle; determining a rollover index by weighting the rollover potentiality index by a factor of the lateral acceleration and a factor of the tire load, wherein the measured tire load is determined by measuring a length of a contact patch of a vehicle tire and measuring changes to the contact patch length; and providing a control signal from a controller configured to output a control signal to a system of the vehicle to implement corrective action to reduce the potential of an actual rollover when the rollover index is above a predetermined threshold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
